

JAYANTH T R

AI ENGINEER

jayanthtr67@gmail.com | 9342160653 | Jp Nagar, Bengaluru

PROFESSIONAL SUMMARY

AI Engineer with **1.6 years of experience** building AI-powered solutions using Generative AI, Large Language Models, AI chatbots, and RAG systems. Experienced in **Python, FastAPI, prompt engineering, model integration, and AI APIs**, with hands-on experience developing practical AI-driven applications. Passionate about applying emerging AI technologies to solve real-world problems and building intelligent, scalable systems.

TECHNICAL SKILLS

AI & Generative AI	: Generative AI, Large Language Models (LLMs), Prompt Engineering, RAG, AI Chatbots
AI Platforms & APIs	: Google Gemini API, OpenAI API, Hugging Face API
Programming	: Python, JavaScript
Backend & APIs	: FastAPI, Node.js, Express.js, REST APIs
Databases	: MongoDB, PostgreSQL
Cloud & Deployment	: AWS, API Deployment, Cloud Services
Tools & Technologies	: Git, GitHub, Postman

PROFESSIONAL EXPERIENCE

Software Developer - Beats Production Pvt Ltd <i>AI Engineer Generative AI</i>	May 2025 – Present <i>Bengaluru, India</i>
--	---

- Developed AI-powered **photobooth applications** using Generative AI and image generation models.
- Integrated **Google Gemini, OpenAI, and Hugging Face APIs** for AI-powered image generation and intelligent workflows.
- Built AI backend services and inference APIs using **Python and FastAPI**.
- Deployed and managed AI applications using **AWS Cloud** and optimized AI workflows for performance and reliability.
- Applied **prompt engineering** and evaluated AI models based on output quality, performance, and use-case requirements.

MERN Stack Intern - Profimax Digiconnect Pvt Ltd <i>Software Development Intern</i>	Oct 2024 – Apr 2025 <i>India</i>
---	-------------------------------------

- Contributed to an **AI chatbot application using Python**, integrating AI capabilities into real-world workflows.
- Developed responsive and interactive chatbot interfaces using **React.js and JavaScript**.
- Built and integrated **REST APIs** to connect frontend applications with backend services and AI functionalities.
- Worked across frontend and backend components to integrate AI-driven functionality into web applications.

PROJECTS

AI Workspace	<i>FastAPI, PostgreSQL, OpenAI, ChromaDB, Docker, AWS</i>
- Developed a production-ready AI platform for business productivity and event management, integrating AI Chat, Web Search, and a RAG-based Knowledge Assistant. - Built AI-powered Estimate and File Generators for creating professional event documents, reports, and generated files. - Developed an AI-powered Event Image Enhancer and file management system for processing, storing, downloading, and managing generated content. - Built and deployed the platform using FastAPI, PostgreSQL, OpenAI, ChromaDB, Docker, and AWS EC2.	

AI Time Travel Photobooth

Generative AI, Gemini API, FastAPI

- Developed a Generative AI photobooth that transforms user photos into different historical and futuristic time periods.
- Integrated **Google Gemini APIs** with prompt engineering to generate consistent, theme-specific image transformations.
- Built an end-to-end AI workflow for image processing, generation, and result delivery using **Python and FastAPI**.

EDUCATION

Sri Ramakrishna Mission Vidyalaya College of Arts and Science
B.Sc Computer Science

Coimbatore, India
Jun 2021 – Apr 2024

ADDITIONAL INFORMATION

Languages : English, Tamil
