PROFESSIONAL SUMMARY

AI Engineer with **1.6 years of experience** developing AI-powered applications using **Generative AI, Large Language Models, RAG, Python, and FastAPI**. Hands-on experience integrating **Google Gemini, OpenAI, and Hugging Face APIs**, developing AI workflows, prompt engineering, model evaluation, and deploying AI solutions on AWS. Experienced in building practical AI systems for business productivity, intelligent document processing, image generation, and AI-powered applications.

TECHNICAL SKILLS

AI & Generative AI	: Generative AI, Large Language Models (LLMs), Prompt Engineering, RAG, AI Chatbots, Image Generation
AI Platforms & APIs	: Google Gemini API, OpenAI API, Hugging Face API
Programming	: Python, JavaScript
Backend & APIs	: FastAPI, Node.js, Express.js, REST APIs
Databases	: PostgreSQL, MongoDB, ChromaDB
Cloud & Tools	: AWS, Docker, Git, GitHub, Postman

PROFESSIONAL EXPERIENCE

Software Developer - Beats Production Pvt Ltd <i>AI Engineer Generative AI</i>	May 2025 – Present Bengaluru, India
- Developed AI-powered photobooth applications using Generative AI and image generation models for real-world event experiences. - Integrated Google Gemini, OpenAI, and Hugging Face APIs for image generation, AI workflows, and intelligent application features. - Designed and developed AI backend services and inference APIs using Python and FastAPI for processing AI requests and generated content. - Deployed AI applications on AWS Cloud and optimized AI workflows for performance, reliability, and efficient response handling. - Applied prompt engineering and model evaluation to improve output quality and align AI-generated results with application requirements.	
MERN Stack Intern - Profimax Digiconnect Pvt Ltd <i>Software Development Intern</i>	Oct 2024 – Apr 2025 India
- Contributed to an AI chatbot application using Python, integrating AI capabilities into real-world business workflows. - Developed responsive chatbot interfaces using React.js and JavaScript and integrated them with backend services. - Built and integrated REST APIs connecting frontend applications with backend services and AI functionality. - Worked across frontend and backend components to deliver AI-driven web application features.	

PROJECTS

AI Workspace	<i>FastAPI, PostgreSQL, OpenAI, ChromaDB, Docker, AWS</i>
- Developed a production-ready AI platform for business productivity and event management, integrating AI Chat, Web Search, and a RAG-based Knowledge Assistant for intelligent document querying. - Built AI-powered Estimate and File Generators for creating professional event documents, reports, and generated files. - Developed an AI-powered Event Image Enhancer and file management system for processing, storing, downloading, and managing generated content. - Built and deployed the platform using FastAPI, PostgreSQL, OpenAI, ChromaDB, Docker, and AWS EC2.	
AI Time Travel Photobooth	<i>Generative AI, Gemini API, FastAPI</i>
- Developed a Generative AI photobooth that transforms user photos into historical and futuristic time periods based on selected themes. - Integrated Google Gemini APIs with prompt engineering to generate consistent, theme-specific image transformations. - Built an end-to-end AI workflow using Python and FastAPI for image processing, generation, and result delivery.	

EDUCATION

Sri Ramakrishna Mission Vidyalaya College of Arts and Science <i>B.Sc Computer Science</i>	Coimbatore, India Jun 2021 – Apr 2024
